

# Sass

## Curso Completo

Tássio Gonçalves

## Sass na Linha de Comando

## Converter Arquivos

---

```
# Converter Sass para SCSS
```

```
$ sass-convert style.sass style.scss
```

```
# Converter SCSS para Sass
```

```
$ sass-convert style.scss style.sass
```

## Sass na Linha de Comando

---

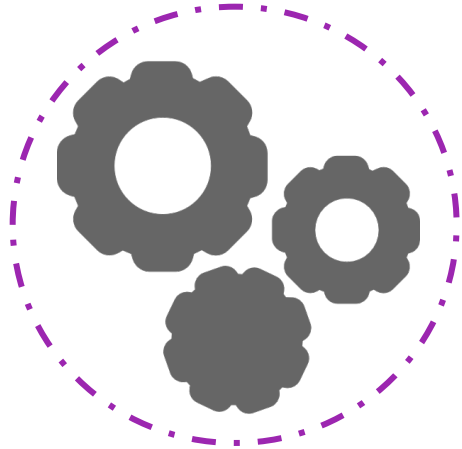

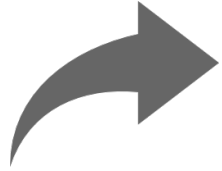

```
# Compilar SCSS para CSS  
$ sass input.scss output.css
```

# Pré-processador

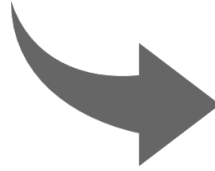

----

input.scss

Pré-processador

output.css

```
$font-size: 14px;  
$border: 1px solid black;  
h1{  
  font-size: $font-size;  
  border: $border;  
}
```

```
h1{  
  font-size: 14px;  
  border: 1px solid black;  
}
```

*Sass*

# "Escutando" Archivos Sass

---

```
$ sass --watch input.scss:output.css
```

"Escutando" Pastas

---

```
$ sass --watch scss:css
```
